### MEDICAL COLLEGE OF BENGAL.

#### Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College :—

(a) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(b) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (*See* separate prospectus for military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (a) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.

3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on the 5th October and closes on the 31st March.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :

	Rs.	A.
Admission fee ... ..	20	0
Fees for Summer term ... ..	62	8
Athletic Club fee ... ..	4	0
Total ... ..	86	8

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, and 6 candidates by the Inspector-General, Civil Hospitals, Assam, 3 candidates of the Dacca University and 3 candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.

8. All regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under Rule 19.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed.

12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment :—

	Rs.
For one subject ... ..	25
For two subjects ... ..	50
For three or more subjects ... ..	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.

15. In calculating the sum to be paid under rule 14 by a regular student, the amount of college fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 125 for the year in which they hold such scholarships. ## Sheriff's Sale Proclamation.

TO be peremptorily sold pursuant to an order of the High Court of Judicature at Fort William in Bengal made in the Ordinary Original Civil Jurisdiction in suit No. 839 of 1910 (Dooly Chand vs. Gobinda Das Pitty) and dated 21st July 1922 by the Sheriff of Calcutta in his sale-room in the Court House, on Friday, the 5th day of June 1925, at 12 o'clock noon, the following property belonging to the defendant judgment-debtor.

All that partly two storied and partly one storied messuage or dwelling house together with the piece or parcel of land thereunto belonging and on part whereof the same is erected and built containing by estimation 15 cottahs more or less and known as No. 1, Shyam Square, East (formerly No. 16-1, Ram Kanta Bose's Street), in Sootanooty in the Northern Division of the town of Calcutta and butted and bounded as follows :— On the north by the premises No. 2, Shyam Square East (formerly No. 16-1-1, Ram Kanta Bose's Street) on east partly by the house and premises No. 110, Shyam Bazar Street and partly by the house now or formerly of Babu Radha Raman Kar and Radha Gobinda Kar and partly by the house now or formerly of Akshoy Charan Mukherjee and on the south and west by a public road.

From searches made in the office of the Registrar of Assurances, Calcutta, from the year 1865 to the 20th day of April 1923, it appears that the abovenamed property is subject to the following encumbrances :—

(1) Mortgage, dated the 4th August 1909, from Gobinda Das Pitty to Nundo Lal Roy and others to secure repayment of Rs. 61,000 with interest at 8 per cent. per annum and cost, and registered at the Calcutta Registry Office in Book No. 1, volume 48, pages 226-235, being No. 1941 of 1909.

(2) Further charge, dated the 24th February 1910, from Gobinda Das Pitty to Nundo Lal Roy and others to secure repayment of further sum of Rs. 3,000 with interest at 8 per cent. per annum and costs and registered at the Calcutta Joint Sub-Registry Office in Book No. 1, volume 9, pages 249-253 and being No. 625 of 1910.

(3) Second mortgage by way of additional security, dated the 25th May 1912, from Gobinda Das Pitty to J. C. Gulstaun and another to secure repayment of Rs. 20,000 and registered at the Calcutta Registry Office in Book No. 1, volume 42, page 212 and being No. 1195 of 1912.

That by a decree of this Court made in this suit and dated the 14th day of June 1921 the plaintiffs were directed to execute a reconveyance in respect of the said premises and the draft reconveyance is ready but has not yet been executed.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 29th April 1925.

**Summary.**—During the week the rainfall was generally moderate to heavy. It has benefited the standing crops and the agricultural operations generally in West Bengal, while in East and North Bengal excessive rain has interfered with the sowing and weeding of jute and paddy, especially in low land tracts. The average price of common rice for the province has risen by about 0·39 per cent. as compared with that of the previous week.

*No. 258T.A.I. —The 6th May 1925.*—In supersession of this department notification No. 1411Ind., dated the 23rd August 1922, the following revised rules for admission to the Government Weaving Institute, Serampore, are published for general information.

2. The next session in the first year class of the higher classes and in the artisan classes commences in July 1925.

G. S. DUTT,

*Secretary to the Government of Bengal.*

**Rules for admission to the Government Weaving Institute, Serampore.****Object for which the Institute is established.**

The Weaving Institute has been established with the object of giving technical instruction in the best and latest methods of hand-weaving, of extending a knowledge of the mechanical improvements which make the modern hand-loom so vastly more effective an instrument than the primitive looms still widely used by weavers in Bengal, and so of strengthening and reviving the weaving industry in this country.

With these objects in view two distinct grades of instruction are given, forming higher and lower classes, respectively—

- (1) To young men of fair education, who may be trained as teachers, managers and organisers of the weaving industry. These form the higher classes;
- (2) To actual hand-loom weavers. These form the lower or artisan classes.

The institute is staffed and administered by the Bengal Government. It is managed by the Principal under the general control of the Director of Industries, Bengal.

**RULES FOR THE HIGHER CLASSES.**

1. The number of admissions to these classes in each year is limited to 75. Twenty-five per cent. of the seats will ordinarily be reserved for Muhammadan students, the claims of eligible candidates in excess of this number will be considered on their merits.

2. Candidates for admission must have passed the School Final Examination, Science Side, or the University Matriculation Examination or have been trained in one of the Technical Schools affiliated to the Overseer Examination Board up to the Sub-Overseer standard.

3. The session begins in the third week of July. All applications for admission should reach the Principal by the first week of June and should furnish the following particulars :—

- (a) Name, address and occupation of father or guardian.
- (b) Race and religion.
- (c) A medical certificate showing that the applicant is in good health.
- (d) Educational qualifications.
- (e) A certificate of good moral character from the last Head Master or Principal.
- (f) An attested certificate of age of the candidate.

4. Six scholarships of Rs. 15 each a month will be awarded to students of the first-year class on the results of a special examination held shortly after the commencement of the session. Five scholarships of Rs. 15 each a month will be awarded to the students of the second-year class and four scholarships to the students of the third-year class on the results of the annual examination of the first and second-year classes, respectively, of the previous year. Of these, two scholarships in the first-year class, one in the second-year and one in the third-year will be reserved for Muhammadans.

These scholarships are intended for Bengalee students or students domiciled in Bengal, and they will not be awarded to those holding District Board or other stipends. Should, however, there be an insufficient number of qualified candidates to fill the scholarships reserved for any particular denomination or creed, the vacant scholarships may be awarded to deserving candidates from other sects.

5. Students to whom scholarships have been awarded will not ordinarily be allowed to hold their scholarships for the succeeding years if they fail to pass the annual examinations.

6. Students joining the higher classes will have to sign an undertaking to the effect that they intend to make weaving their profession after the completion of their training. They may be required to refund the amount of any scholarship they have received if they leave before completion of their first year's course.

7. The course of study in these classes extends to three years. Students are required to attend at least 75 per cent. of the working days.

8. Students who pass the examination at the end of the third year's course will receive a diploma entitled "Associate of the Government Weaving Institute, Serampore", and signed by the Principal of the Institute and the Director of Industries, Bengal, or his representative.

### MEDICAL COLLEGE OF BENGAL.

#### Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College :—

(a) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

(b) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (*See separate prospectus for Military students.*)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (a) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.

3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on the 5th October and closes on the 31st March.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

				Rs.	A.
Admission fee	...	...	...	20	0
Fees for Summer term	...	...	...	62	8
Athletic Club fee	...	...	...	4	0
Total	...	...	...	86	8

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, and 6 candidates by the Inspector-General, Civil Hospitals, Assam, 3 candidates of the Dacca University and 3 candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.

8. All regular students must pay an annual fee of Rs. 125 in two instalments, viz. Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under rule 19.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed.

12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment :—

	Rs.
For one subject ... ..	25
For two subjects ... ..	50
For three or more subjects ... ..	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 10 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.

15. In calculating the sum to be paid under rule 14 by a regular student, the amount of College fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 125 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as regular students.

## DEPARTMENT OF AGRICULTURE, BENGAL.

### Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1924-25.

[NOTE.—On an average of the five years ending 1922-23, the area under linseed in Bengal has represented some 4.5 per cent., and that under rape and mustard 15.9 per cent. of the total area under these crops in British India.]

**Character of the season.**—As reported in the preceding forecast, the weather during the early stage of the crops was not generally favourable. Dry weather during the month of December, however, improved the prospects, but occasional untimely rain with hail between January and the middle of March adversely affected the mature crops to some extent. Subsequently dry weather was helpful to the harvesting of the late crops. On the whole the season has been a fair one for the crops this year.

**Acreage.**—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum, for which separate forecasts are issued) is returned at 884,600 acres this year as against 882,500 acres in the corresponding forecast of last year.

**Outturn.**—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 75 per cent. of the normal as against 72 per cent. in the corresponding forecast of last year.

Taking 5½ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard, and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 144,000 tons this year as against 137,800 tons last year.

Director of Agriculture, Bengal.

**DISTRICT REPORTS ON WEATHER AND CROPS.**

**For the week ending on the 6th May 1925.**

**Summary.**—During the week the rainfall was generally light to moderate. Field operations for jute and paddy continue favourably in the West Bengal districts. In East and North Bengal the sowing and weeding of jute and paddy are in full swing, but the recent excessive rain has interfered with the operations in places, especially in the low-land tracts. The prospects of standing crops are generally satisfactory except in places in North and East Bengal where young jute and paddy plants have been damaged to some extent by the excessive rain. The average price of common rice for the province has risen by about 1·98 per cent. as compared with that of the previous week.

CALCUTTA, THE 18TH MAY 1925.

**RESOLUTION—No. 1814Pl.**

Revised draft rules under the Indian Poisons Act 1919, were published for criticism in notification No. 1571Pl., dated the 9th May 1924. As a result of the opinions received it was decided that revision of the rules as a whole on more radical lines is necessary, and the following small Committee was appointed to advise on the lines to be adopted :—

Major-General R. Heard, C.I.E., I.M.S., Surgeon-General with the Government of Bengal.

Major T. C. Boyd, F.R.C.S.I., Chemical Examiner to the Government of Bengal.

F. Bartley, Esq., Deputy Commissioner of Police, Calcutta.

A. Lunan, Esq., Messrs. Bathgate & Co., Calcutta.

Narayan Chandra Bose, Esq., Messrs. B. K. Paul & Co., Calcutta.

The rules have now been redrafted in accordance with the recommendations of this Committee and are published again for criticism. Their main feature is that poisons are now divided into three categories subject to different degrees of restriction, on the lines of the practice in the United Kingdom. The full restrictions under the old rules only apply to the poisons included in Schedule I; and this list has been extended in accordance with technical advice. It includes opium and other poisons which are subject to the Excise law and which are treated as poisons in the United Kingdom. It is not, however, intended to establish dual control over the custody of such poisons under the Poisons Act as well as the Excise law. Licenses under the Poisons Act will be granted to all persons duly authorised by the Excise authorities to possess excisable commodities, and the only control over the possession of these poisons will be that at present established by the Excise Department.

Certain changes in detail have been introduced with a view to meeting the convenience of chemists. For instance, no stock register is now required for the consumption of poisons issued to a chemist's dispensary. It is proposed to restrict the grant of licenses under the Poisons Act in future to persons holding a compounder's license or employing licensed compounders, but discretion is left to the licensing officer to relax these qualifications for special reasons. The difficult question of patent medicines has been dealt with by placing in Schedule II all patent medicines which contain poisons enumerated in Schedule I, so that the fact that a patent medicine contains a poison will not necessitate an unnecessary degree of precaution in handling it. It has also been made clear that the detailed restrictions in these rules apply only to the retail trade.

ORDER.—Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

L. BIRLEY,

*Chief Secretary to the Government of Bengal.*

**NOTIFICATION.**

*No. 1815Pl.—The 18th May 1925.*—The following draft of rules which in exercise of the power conferred by section 2, sub-section (1) of section 8 and sub-section (3) of section 9 of the Poisons Act, 1919 (XII of 1919), the Governor in Council proposes to make in supersession of all previous rules on the subject, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 1st July 1925 and any objection or suggestion received by the undersigned with regard thereto before that date will be duly considered.

The register shall be totalled and balanced daily and initialled by the license-holder himself or by his accredited representative, if the license-holder is a firm or a company :

Provided that poisons issued from stock to the dispensary on any day shall be entered as one item on the issue side of this register, no detailed stock register being maintained of consumption in the dispensary.

(vi) All such poisons which are kept for sale by the license-holder under these rules, shall be kept in a box, almirah, room or building (according to the quantity maintained) secured by lock and key, and in which no substance shall be kept other than poisons possessed in accordance with a license granted under the Act, and each of these poisons shall be kept within such box, almirah, room or building in a separate closed receptacle of glass, metal or earthenware. Every such box, almirah, room or building and every such receptacle shall be marked with the word "Poison" in red characters both in English and the vernacular, and in the case of receptacles kept for separate poisons with the names of such poisons :

Provided that poisons issued for use in a chemist's dispensary need not be kept under lock and key after such issue during dispensing hours, but should be kept on a separate shelf in the dispensary in bottles distinguishable by touch and colour from ordinary bottles. Notwithstanding anything contained in these rules the sale of the

following poisons shall be subject only to the restrictions under the Opium Act, 1878, and the Bengal Excise Act, 1909, and the rules framed thereunder except that the vendor shall be required to take out a license under rule 5, namely :—

J. N. ROY, *Commissioner (offg.).*

CHITTAGONG DIVISION, CHITTAGONG, *the 12th May 1925.*

## NOTIFICATION.

READ letter No. 1278L.S.-G., dated the 5th March 1925, from the District Magistrate of Burdwan to the address of the Chairman of the District Board, Burdwan, bringing to the notice of the Board certain acts of grave misconduct on the part of the President of the Eral union board, Babu Bisseswar Raja.

Read also the proceedings of a special meeting of the Eral union board held on the 16th March 1925.

Read also letter No. 191V.S.-G., of the 21st April 1925, from the Chairman of the Burdwan District Board.

## Order.

I have considered the views of the District Magistrate and of the District Board in this matter. There can be no doubt that the President, Babu Bisseswar Raja, has been realising illegal gratification from the chaukidars and dafadars of the union. The majority of the members of the union board, far from showing their disapproval of such conduct, have supported him in it by refusing to allow him to resign when called upon by the District Board to do so. I hold that the Eral union board is not competent to discharge its duties, and under section 56 (1) (a) of the Village Self-Government Act, I remove the President, Babu Bisseswar Raja, from his office both as President and as member, Eral union board.

#### **MAINAMATI SURVEY SCHOOL.**

**(Post-office Mainamati, district Tippera.)**

##### **Admission Rules (Provisional).**

THE Mainamati Survey School is a Government institution under the administrative control of the Director of Industries, Bengal. It is situated on the Mainamati Hill, four miles from the Comilla railway station in the Tippera district.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The full course of instruction extends over two years: either the full course may be taken, or the first year's course only. At present the session for the first year's course begins from the 1st August, terminating on the 31st July of the following year.

4. The session for the second year's course extends without a break from the first Monday in November to the middle of September of the following year.

5. It is a residential institution, and the students are required to reside in the school premises and must conform to the rules sanctioned by Government. Students may live with their parents or with approved guardians with the special permission of the Principal. The messing charges for Hindu students average about Rs. 10 per month. Owing to the paucity of Muhammadan students they are allowed to make their own messing arrangements.

6. The qualifications for admission to the first year's course are :—

- (a) A sound knowledge of elementary arithmetic.
- (b) Ability to write simple English and vernacular.
- (c) Fitness for arduous field-work.
- (d) A certificate of character from the head of the institution where he was last educated.

NOTE.—Preference will be given to those who have passed the Matriculation Examination or received higher education.

7. The maximum age of the candidates for admission to the first year's course should be under 21 years on the 1st January of the year of admission, but an exception to this rule may be made in special cases.

8. Application for admission into the first year's course must be accompanied by a registration and examination fee of Rs. 3 and should reach the Principal's office on or before the 30th June. The registration and examination fee shall, in no case, be refunded.

9. Candidates who do not possess a fair knowledge of English will not be ordinarily promoted to the second year class.

10. All payments, whether on account of tuition fees, boarding and lodging, must be made at the Principal's office on or before the 15th of each month. After that date no payment shall be taken, unless accompanied by a fine of Re. 1 for every three days' delay. If the payment is not made during the month for which it is due, the defaulting student's name shall be struck off the school roll, and he will not be re-admitted until he has paid all arrears, together with any fines which may be due from him, and a re-admission fee of Rs. 5.

11. The following monthly fees, payable for twelve months, are charged :—

			Rs.	A.	
School fees	...	...	...	3	0
House-rent	...	...	...	0	8

12. The full messing fees shall be charged every month during the school session, which is calculated to be about ten and-a-half months yearly.

13. The school remains closed on all gazetted holidays and for a long vacation for six weeks from about the middle of September. During the vacation every boarder shall pay a contribution not exceeding Re. 1 a month towards the cost of maintaining mess servants.

14. Leave for short periods not ordinarily exceeding ten days in a year may be granted to students by the Principal in special cases. Students present at the school but unable to do any work on medical ground are excused from attending the class on the recommendation of the resident medical officer, but frequent leave on petty excuses may render a student medically unfit for the course and his name may be struck off the roll.

15. The admission fees are as follows :—

### MEDICAL COLLEGE OF BENGAL.

#### Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College :—  
(a) "Regular class" or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University and the provinces of Assam and Central Provinces, and those who come from the Dacca University and Board as provided for in rule 4.

- (b) "Military class" (only students of European or Anglo-Indian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (a) "Regular class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry, or any examination equivalent to it. In assessing the claims of those eligible for admission, special proficiency in those subjects particularly useful in the medical curriculum will be given the fullest consideration, viz., in English, Physics, Chemistry and Botany.

3. The Summer term commences on the 15th June and closes on the 19th September. The Winter term opens on the 5th October and closes on the 31st March.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Assamese students, who should apply to the Inspector-General of Civil Hospitals of that province for admission within such date as that officer may prescribe. Students who come from the Dacca University and the Dacca Board of Intermediate and Secondary Education are admitted on the nomination of the Secretary of the said Board and University, and the candidates from the Central Provinces on the nomination of the Director of Public Instruction of that province.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

	Rs.	A.
Admission fee ... ..	20	0
Fees for Summer term ... ..	62	8
Athletic Club fee ... ..	4	0
Total ... ..	86	8

5. The number of regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number, and the final selection lies entirely with him.

One-fourth of the total number to be admitted, if a suitable number of candidates be obtained, shall be Muhammadans. One candidate will be nominated by the Director of Public Instruction, Central Provinces, and 6 candidates by the Inspector-General, Civil Hospitals, Assam, 3 candidates of the Dacca University and 3 candidates of the Dacca Board of Intermediate and Secondary Education by the respective authorities. These candidates must possess the qualifications mentioned in rule 2. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to this College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

- (b) Female students already studying in this College but belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay the fee within the date prescribed by the Principal, otherwise their claims will lapse.

8. All regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the Winter term. They must also pay the annual Athletic Club fee of Rs. 4 along with the fees for their Summer term. Fees once paid cannot be refunded except to those whose claim for the refund is tenable under rule 19.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for the Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal directs, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.

11. Students relegated to a further course of study after failure to pass the Preliminary Scientific M.B. and the First M.B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed.

12. Students who fail at the Final M.B. Examination shall pay fees for the whole session at the following rates in one instalment :—

	Rs.
For one subject ... ..	25
For two subjects ... ..	50
For three or more subjects ... ..	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each such subject including lectures and practical classes.

14. The fee for certificates issued to regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of Hospital practice.

15. In calculating the sum to be paid under rule 14 by a regular student, the amount of College fees paid by him (or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student) shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, *i.e.*, he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fees of Rs. 125 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as regular students.

### Final Forecast of the Wheat Crop of Bengal, 1924-25.

[NOTE.—On an average of the five years ending 1922-23, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India and (b) the territory now reported on has, in the five years ending 1922-23, averaged (a) 45·2 and (b) 14·1 per cent., respectively.]

**Character of the Season.**—As indicated in the preceding forecasts, the conditions were favourable, on the whole, up till the end of December. Later on occasional heavy showers during the months January to March, accompanied in places with hail, seriously damaged the mature crop especially in the important district of Malda which contains more than one third of the total area under wheat in the province. On the whole, the season has been unfavourable for the crop.

**Acreage.**—According to District officers' estimates, the total area sown is 126,400 acres this year as against 120,400 acres last year.

**Outturn.**—The provincial outturn, as worked out from district estimates, is 64 per cent. of the normal as against 62 per cent. last year. Taking the normal yield to be 8½ maunds per acre, the gross yield of the crop for the province is estimated at 24,800 tons this year as against 22,900 tons last year.

At the end of April the average wholesale price of wheat at the principal marts of the province was Rs. 6-4-6 per maund, or about 24 and 19 per cent. higher than the prices ruling at the corresponding periods of last year and the year preceding respectively. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 7-0-7 per maund, or about 23 and 22 per cent. higher than the prices ruling at the corresponding periods of last year and the year preceding respectively.

## DEPARTMENT OF AGRICULTURE, BENGAL.

## Monthly Weather and Crop Report of Bengal for April 1925.

I. **Character of the season.**—The weather was dry during the first week of the month, after which precipitation became general throughout the Presidency and heavy in parts of North and East Bengal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—The dry weather in the beginning of the month delayed sowings of jute and paddy. These operations were facilitated by the good subsequent rainfall except in places of North and East Bengal, where excessive rain caused further delay especially in the low land tracts.

III. **State of standing crops.**—The condition of standing crops was generally satisfactory in East and North Bengal, while in West Bengal it was only fair.

IV. **Prospects and probable outturn.**—The prospects of sugarcane, *til*, jute and paddy were generally hopeful.

V. **Damage to standing crops.**—Damage to young jute and paddy plants is reported to have been caused by excessive rain in parts of some low land tracts of North and East Bengal.

VI. **Condition of agricultural stock.**—The condition of live-stock was, on the whole, satisfactory. Stray cases of cattle-disease, however, were reported from parts of Nadia, Jessore, Dinajpur, Rangpur, Dacca, Bakarganj, Tippera and Cooch-Bihar and Tripura States.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the Presidency.

VIII. **Prices of food-grains.**—During the second fortnight of the month the retail price of common rice of the cheapest quality fell in four, rose in eleven districts and remained stationary in the rest of the Presidency. It ranged from 5 seers per rupee at Tippera to 7 seers per rupee at Chittagong.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.

**RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE  
SOCIETIES IN BENGAL FOR THE YEAR ENDING 30TH JUNE 1924.**

**GOVERNMENT OF BENGAL.**

**AGRICULTURE AND INDUSTRIES DEPARTMENT.**

**Co-operative.**

DARJEELING, THE 16TH MAY 1925.

**RESOLUTION No. 461 T.—A. I.**

**READ—**

The Report on the working of the Co-operative Societies in Bengal for the year ending 30th June 1924.

**Administration.**—Rai J. M. Mitra Bahadur held the office of the Registrar till the 10th January 1924, when he left for England to take charge of the Bengal Court of the British Empire Exhibition. Mr. M. Thorp, Deputy Registrar, then assumed charge of the department and held it for the rest of the year. The post of Deputy Registrar was abolished with effect from the 11th January 1924, the date on which Mr. Thorp was appointed to act as the Registrar. The recommendation of the Bengal Retrenchment Committee that the post of Personal Assistant to the Registrar of Co-operative Societies should ordinarily be filled by a Sub-Deputy Collector instead of by a Deputy Collector was given effect to during the year. The long deferred division of the combined charge of the Presidency and Burdwan Divisions by the appointment of an Assistant Registrar for each was carried out during the year. The new arrangement should facilitate the growth of the co-operative movement in those two divisions, and should enable more effective supervision to be exercised over the societies already in existence. In accordance with the principle that the number of Sub-Deputy Collectors employed as Inspectors should be kept at its minimum, an additional post of departmental inspector was created to fill the place of Maulvi A. M. Arshad Ali appointed Personal Assistant. The question whether a further reduction in the number of Sub-Deputy Collectors employed in the department is practicable is now under the consideration of Government. The proposal for the revision of pay of the subordinate inspecting staff of the department has been approved, and it is proposed to give effect to it as soon as the financial situation permits.

It is gratifying to note that the central banks continue to take over gradually the cost of honorary organisers. While agreeing with the view expressed in paragraph 14 of the report that the work of organisation should be left more and more to extra departmental agencies so far as the credit movement in advanced areas is concerned, Government would reiterate the principle, already accepted by them in connection with the recommendation of the Provincial Retrenchment Committee on the subject, that departmental stimulation will still be necessary not only in developing special types of societies, but also in organising credit societies in areas still remaining undeveloped. At the same time His Excellency trusts that the training of non-official agencies in the work of organisation will be regarded as one of the most important duties of the officers of the Co-operative Department.

**2. General Progress of the movement.**—During the year under review the total number of societies of all kinds rose from 7,822 to 9,342 and the membership from 292,981 to 340,159, while the working capital increased from Rs. 4,33,63,800 to Rs. 5,07,66,290. It is satisfactory that in the general expansion of the movement the internal improvement of the societies has not been lost sight of: dishonest office bearers have been dismissed, refractory members expelled and steps have been taken for the realisation of bad debts and for splitting up unwieldy societies.

The Registrar again calls attention to the important part which the movement can play in encouraging habits of thrift among the rural population. It would seem that this aspect of co-operation is not yet fully realised by most central banks, and it is to be hoped that no effort will be spared to encourage the poorer classes to make greater use of co-operative societies as depositories for their small savings, thereby not only effecting a permanent improvement in their economic condition, but also making available to the outside world of trade and commerce the accumulated savings of millions of agriculturists during their surplus season which usually coincides with the period of tightness in the money market.

3. Turning to details, co-operative organisations in the province may be broadly classified as follows :—

I. Primary Societies—

(a) Agricultural,

(b) Non-agricultural ; and

II. Central Co-operative Organisations.

Steady progress has been made in all these directions during the year under review.

(I) PRIMARY SOCIETIES.

(a) Agricultural Societies.

(i) **Credit Societies.**—Agricultural credit societies constitute 90 per cent. of the total number of societies in the province.

The number of this class of societies rose during the year under report from 7,011 to 8,368, their membership from 186,944 to 216,190, working capital from Rs. 1,48,62,021 to Rs. 1,77,89,251, share capital from 7.03 lakhs to 10.27 lakhs and deposits from members from 6. to 7.83 lakhs. While there has been some increase in deposits from members, they still form but a small fraction of the total working capital, the societies mainly depending on central banks and outside deposits. The primary object of a credit society should be the promotion of thrift among its members, and the Registrar should take every possible step to inculcate this essential principle on the societies.

Another unsatisfactory feature of the situation is the unpunctual repayment of loans. The collections during the year amounted to 38½ lakhs and though the outstandings were reduced from 33.9 lakhs to 31.4 lakhs, this formidable sum still constitutes a real menace to the movement. Steps are being taken to effect internal improvement in the working of the societies and to secure closer supervision over their proceedings and His Excellency trusts that the central banks will actively co-operate with the department in carrying through these much-needed improvements.

(ii) **Agricultural purchase and purchase and sale societies.**—During the year the number of these societies rose from 21 to 22, membership from 4,147 to 4,441 and working capital from Rs. 1,54,641 to Rs. 1,56,161. The profits made by these societies amounted to Rs. 3,620 against Rs. 5,910 in the preceding year.

It is reported that the Sundarbans Supply and Sale Society, the only society of this type which has hitherto been a marked success financially, made a profit of only Rs. 2,189 against Rs. 10,000 in the previous year. The main reason appears to have been a diminution in the volume of business, which consisted mainly of ordinary store transactions to the neglect of sale of the members' agricultural produce. Moreover, the prices of goods were fixed without reference to the actual cost of establishment and other charges. His Excellency the Governor trusts that this lesson will not be lost upon other societies. He also hopes that the experiments which are now being carried out in the organisation of paddy and jute sale societies in several districts will be attended with success.

(iii) **Irrigation Societies.**—This class of societies has developed considerably during the year. Their number increased from 114 to 173 (of which as many as 107 are in the Bankura district alone), membership from 4,689 to 7,376, and working capital from Rs. 77,658 to Rs. 1,29,598. The possibilities of these societies in the direction of solving the difficult problem of agricultural deterioration in the Western Bengal districts are very great. The Registrar roughly estimates that in many areas by means of adequate irrigation, production can be increased by 100 per cent. Moreover these irrigation societies dealing as they do, not only with stream schemes but also with tank schemes are indirectly serving the purpose of anti-malarial societies. Apart from the stream schemes for which there are special facilities in the districts of Bankura and Birbhum, the whole of Western Bengal affords splendid opportunities for the development of tank schemes. Financially these societies have hitherto been most successful and it is hoped that with the increased departmental staff for this class of societies which has now been sanctioned by the Legislative Council, the development of co-operative irrigation movement will be substantially accelerated.

(iv) **Co-operative Agricultural Associations.**—The number of this type of societies during the year rose from 11 to 16, but they have not as yet achieved any striking results. A new type of society called the Modern Co-operative Agricultural Association, Limited, was formed in the Presidency Division during the year under report, with a laudable, though ambitious programme. The main object of this society appears to be the solution of the vexed problem of middle-class unemployment by providing an agricultural colony for the middle-classes, with facilities for small plot cultivation and vocational education. The society unfortunately sustained a severe set back through the death of two of its principal sympathisers, Sir Ashutosh Mukherjee and Sir Ashutosh Choudhury. It is, however, hoped that the society will be able to surmount the initial difficulties under which it is still labouring, and its future career will be watched with interest.

(v) **Production and Sale Societies.—Milk Societies.**—These societies, which were formerly confined to the Barasat subdivision of the 24-Parganas district, have now spread into the Jessore district. During the year their number increased from 52 to 54, membership from 2,040 to 2,155, share capital from Rs. 1,936 to Rs. 2,774, reserve fund from Rs. 2,580 to Rs. 7,448, and profit from Rs. 4,846 to Rs. 11,054. All these societies are members of the Calcutta Milk Union, and their supply is almost wholly consumed in Calcutta. A sum of over a lakh was realised by the sale of the produce, and in spite of transport difficulties which stand in the way of a wider supply, these societies are proving more and more useful in solving the difficult problem of the milk supply of Calcutta.

(vi) **The Naogaon Ganja Cultivators' Co-operative Society, Limited.**—During the year the membership of this society increased from 3,221 to 3,617 and share capital from Rs. 33,710 to Rs. 40,670. The sale proceeds totalled Rs. 10,01,645 as against Rs. 10,84,947 in the preceding year. The slight decrease in receipts from sales was due to a fall in the demand owing to the influence of the temperance movement and also to an increase in the retail sale price. The society continued to maintain its charitable institutions.

(b) **Non-Agricultural Societies.**

These mainly fall under three groups, viz., Credit, Stores and Supply, and Miscellaneous societies.

(i) **Credit Societies.**—Their number rose during the year from 186 to 223, membership from 62,070 to 72,553, share capital from 22½ lakhs to 26½ lakhs, and working capital from 83 lakhs to 97 lakhs. The Registrar reports that the novel method of working adopted by the Tippera district civil court employees' co-operative relief Society has attracted notice from other parts of India. This society, with the object of promoting thrift among its members, enforces a compulsory deposit of Re. 1 a month from every member and invests the proceeds

in the longest term deposit in the Comilla Central Bank. It is interesting to find that some of the Mehtars' societies, while fulfilling the primary object of ameliorating the economic condition of their members, have been successful in combating drunkenness.

(ii) **Stores and Supply Societies.**—The co-operative stores movement has made no progress. Their number during the year fell from 76 to 69 and membership from 12,997 to 12,416, while the sales were reduced from 7·90 lakhs to 6·69 lakhs. The loss incurred during the year amounted to Rs. 32,435. The main cause of this failure seems to be inefficient management which, not unnaturally, leads to distrust and lack of co-operation among the members. The Registrar has recently published a Stores Manual, which should be useful to societies of this class. A few of them are already doing useful work. The management of small stores dealing with the ordinary necessities of life should not present any insuperable difficulties and, if properly run, they should be of considerable benefit to their members.

(iii) **Miscellaneous Societies.**—The Dacca conch-shell workers' society, which was doing good work in resuscitating the old and renowned conch-shell industry of Dacca, had to be liquidated owing to the capitalistic spirit in which the society was being run. The Dacca industrial union has, however, succeeded in organising eight new societies among the Dacca conch-shell workers, and it is hoped that these societies will profit by the lessons of the liquidated society and manage their affairs in a truly co-operative spirit. Among other societies of this class may be mentioned the Madhaymagram Chican society, some of the products of which were taken to the British Empire Exhibition and found a ready sale there. Good work has been done by fishermen's and weavers' societies, and the latter have received a considerable impetus through the formation of industrial unions.

## II.—CENTRAL CO-OPERATIVE ORGANISATIONS.

(i) **The Bengal Provincial Co-operative Bank, Limited.**—Satisfactory progress was made by this apex bank during the year. Its membership increased from 89 to 109, working capital from 34·73 lakhs to 36·77 lakhs, reserve and other funds from Rs. 66,238 to over one lakh, and its share capital from 3·59 lakhs to 4·57 lakhs. The amount of public confidence that the bank has now secured is shown by the fact that in spite of lower rates of interest, public deposits still continue to flow into an even larger extent than before. Satisfactory relations continue to subsist between the Provincial Bank and its constituent members, and the link between the financing of agriculture and that of trade and commerce has at last been forged by placing in the joint stock banks the surplus of co-operative money accumulated in the Provincial Bank during the slack season. Government are much indebted to Mr. S. R. Das, Advocate-General, who at considerable sacrifice of his time has held the post of Chairman of the Provincial Bank during the last two years.

(ii) **The Central Banks.**—Excluding the industrial unions the number of Central Banks increased by seven during the year. The total number of societies affiliated to these banks rose from 7,082 to 8,289, their working capital from Rs. 1,51,25,775 to Rs. 1,75,06,244, deposits from non-members being Rs. 1,10,21,456 against 97·78 lakhs in the previous year. The total collections from societies were 53·31 lakhs against 48·68 lakhs. The relations of the Central Banks with the village societies were generally satisfactory, but the Registrar's remarks as to the necessity of maintaining an efficient managing staff deserve attention.

(iii) **The Calcutta Central Co-operative Anti-malarial Society, Limited.**—This Central Society has now 204 societies affiliated to it as against 116 in the preceding year, but only 33 of these affiliated societies are registered under the Act. It is reported that one of the main reasons why most of these societies do not apply for registration is the liability of registered societies to pay audit fees. In recognition of the beneficent activities of these societies which, unlike other co-operative organisations, aim at benefiting not only their members but also the general public in their respective

localities; the Registrar exempted these societies from payment of audit fees for last year. His Excellency takes this opportunity of placing on record his high appreciation of the spirit which has prompted Rai Bahadur Dr. G. C. Chatterji to undertake the work of guiding this movement at considerable personal sacrifice.

**4. Miscellaneous.—The Bengal Co-operative Organisation Society.—**

This organisation continues to do useful work, but its activities are restricted to propaganda and publicity and it does not undertake actual organisation or the supervision and control of primary societies. These functions are now vested in the Central Banks which have generally discharged them satisfactorily so far, but the combination of all these functions in a financing body is obviously not an ideal arrangement, and the feasibility of these duties being ultimately taken over by a body other than and independent of the financing authority will be examined in connection with the proposal for the reorganisation of the Bengal Co-operative Organisation Society which has been engaging the Registrar's attention.

**5. Attitude of the public.**—His Excellency the Governor notices with pleasure that the sympathy of the public with the co-operative movement shows no sign of abatement. It is, however, reported that the general public are still inclined to regard the extension of co-operative institutions as largely a matter for departmental effort. It should be realised that unless voluntary organisations take the initiative in the field of co-operative organisation, the far-reaching possibilities of the movement for the moral and economic uplift of the population of the Presidency cannot be brought within the sphere of accomplishment.

**6.** The thanks of Government are due to Rai J. M. Mitra Bahadur and Mr. Thorp for their efficient administration of the department during the year. His Excellency has noticed with pleasure the good work done by the Assistant Registrars and particularly by Babu Susil Kumar Ganguli whose services have been specially commended by the Registrar. His Excellency also takes this opportunity of acknowledging the assistance received by the officers of the department from many non-official gentlemen who have freely given of their time and energy in furthering the progress of the movement, and also from those District and Subdivisional Officers who are reported to have given active help to the movement within their respective jurisdictions.

deed, policies of insurance, bills of exchange and promissory notes, and generally all other documents\* of the nature of those hereinbefore mentioned.

(2) When the value of the right, title and interest affected is not expressed in such documents, a fee of Rs. 20 shall be payable.

*Explanation.*—(1) In cases of conveyances and bills of sale where any consideration is expressed, such consideration; in the case of a deed of gift, the value of the property thereby disposed of; in cases of deeds of dower and settlement, the amount of dower and the value of the property settled; in the case of a document securing periodical payments, other than a lease, the amount payable for one such period in addition to any amount other than such periodical payments, paid or payable as consideration for such document; and in the case of bonds, mortgages and instruments of further charge, the amount thereby secured, shall be taken to be the value of the right, title and interest affected within the meaning of this article.

(2) In the case of leases as classified below, the amounts specified against each class shall be taken to be the value of the right, title and interest affected within the meaning of this article:—

Class of leases.	Amount representing the value of right, title and interest affected.
(a) A lease by which the rent is fixed, but in respect of which no premium or* fine is paid or delivered and no money is advanced, and which is granted—	
(i) for a period of less than one year, or	The total sum payable under the lease.
(ii) for a specified period of one year or more, but not exceeding 10 years; or	An amount equal to the average annual rental.
(iii) for an indefinite period, or	An amount equal to two years' rent.†
(iv) for a period exceeding ten years, or	
(v) in perpetuity.	
(b) A lease which is granted for a fine or premium or for money advanced, and by which no rent is reserved.	The amount of the fine, premium or money advanced.
(c) A lease which is granted for a fine or premium or for money advanced in addition to rent reserved.	The total of (1) the amount of the fine, premium or advance, and (2) the amount which would be calculated in the case of the lease under clause (a) if no fine, premium or advance had been paid or delivered.

(3) In the case of partition deeds the value of the share or shares on which stamp duty is payable under article 45 in Schedule I to the Indian Stamp Act, 1899, shall be taken to be the value of the right, title and interest affected within the meaning of this article:

Provided that—

- if a patta or lease‡ given to any raiyat, and the kabuliyat or counterpart of such lease executed by such raiyat, be presented for registration *at the same time*, the fee payable for the registration of the patta shall be half of what would have been payable if the patta alone had been presented, and the fee payable for the registration of the kabuliyat shall be equal to that payable for the registration of the patta;
- an instrument so framed as to come within two or more descriptions of the document enumerated above shall, when the fees chargeable thereunder are different, be charged with the highest of such fees;
- the fee on any instrument comprising or relating to several distinct matters shall be the aggregate of fees with which separate instruments, each comprising or relating to one of such matters, would be chargeable;

\* The following classes of documents are included:—

"An Acknowledgment or an ordinary Receipt for money received, Certificates of sale, Releases whereby a person renounces a claim against any specified property, not being the subject of previous registered encumbrance, Award directing a partition, Declaration of Trust of the nature of Settlement, Deeds for exchange of property, Transfer of lease for a consideration, Assignment by a partner of his share and interest to his Co-partners on the dissolution of partnership for a consideration." (Vide Inspector-General of Registration's circular No. 3, dated the 25th February 1915.)

† The following instructions should be followed in calculating the two years' rent:—

- In the case of leases for an indefinite period, the amount payable for the first ten years should be calculated and one-fifth of the said amount should give the two years' rent.
- In the case of leases for a period exceeding ten years, the total amount payable for the period mentioned in the leases should be calculated and then divided by the number which represents half the said period. Thus, if the lease be for twenty years, the two years' rent would be the total rent for twenty years divided by ten.
- In the case of leases in perpetuity, the rent payable for the first fifty years should be calculated and then divided by 25. This would give the two years' rent. (Vide Inspector-General of Registration's circular No. 2, dated the 9th January 1915.)

‡ A lease should be *prima facie* a raiyati lease, that is, a lease granted to a raiyat for purpose of cultivation, to entitle it to the benefit of the article.

- (d) when a document which has been executed by only some of the parties to it is presented for registration, the other parties or any of them may attend and execute the document and admit execution thereof without the payment of any further fee, so long as a certificate of registration has not been endorsed thereon and duly signed, sealed and dated under section 60; but if the registration of the document has been completed, it must be presented afresh for registration, and a second fee shall be payable; and
- (e) the fee leviable for the registration of a document purporting to give collateral or auxiliary or additional or *substituted* security, or security by way of further assurance, where the principal or primary mortgage is proved to the satisfaction of the registering officer to have been duly registered, shall be the same as for the principal or primary mortgage, if the same does not exceed Rs. 4, but shall in no case be more than Rs. 4.

B. The fee for the registration of a separate instrument acknowledging the receipt or payment of any sum of money, whether consideration on account of any deed of sale or mortgage, or rent on account of any lease, or other value expressed in any document, shall be calculated, according to the amount received, on the *ad valorem* scale fixed under article A:

Provided that if any instrument referring to the same transaction has already been registered\*, such fee shall not exceed Rs. 4.

C. In the case of wills, fees shall be paid as follows:—

	Rs.
(i) For the deposit or withdrawal of a sealed cover containing a will ... ..	4
(ii) For opening such cover (in addition to the fee for copying the contents which shall be charged according to the scale laid down in article G for the granting of certified copies) ...	4
(iii) For the registration of a will† or authority to adopt when presented open ... ..	8

D. The fee for the registration of an agreement for personal service shall be Re. 1 only.

E. The fee for the registration of any document not mentioned or described in any of the foregoing articles shall be Rs. 2†.

*Note.*—Proviso (c) and (d) to article A apply also to articles B, D and E.

F. (1) Fees payable for searching the indexes and inspecting the registers shall be as follows:—

	Rs.	A.
(i) For the first year for each entry or document for which search of the indexes of a specified office is made ...	1	0
(ii) For every other year as aforesaid ... ..	0	8

- (c) no fee for search shall be payable if in any application for a copy of an entry or for inspection of any entry, the nature of the document, the date of registration, the register and volume in which it is copied and its number in such volume are shown.

\* An instrument acknowledging the receipt of payment of any sum of money by way of consideration, rent or otherwise should be charged with registration fees on the *ad valorem* scale fixed under article A. Where such an acknowledgment or receipt is a *separate* or subsidiary instrument referring to the same transaction, then if the principal document has *not* been registered, the provision of paragraph 1 of article B should apply, i.e., fee on the *ad valorem* scale under Article A should be charged for the separate or subsidiary receipt. But if the principal document *has been* registered, then the fee should be calculated according to the proviso to article B, i.e., on the *ad valorem* scale in article A, subject to a maximum of Rs. 1 (Vide Inspector-General of Registration's circular No. 7, dated the 7th July 1914.)

† "or revocation or cancellation of a will" (Vide Inspector-General of Registration's circular No. 19, dated the 11th August 1915.)

## II.—Extra or Additional Fees.

(2) In addition to such fees, travelling allowance shall be paid in every case to the registering officer or the Magistrate or the person to whom the commission has been issued, as the case may be, at the rate of four annas a mile for the actual distance to be travelled, provided that the place to be visited is more than one mile from the Court or registration office:

Provided that in towns where carriages are available on hire, the registering officer or the Magistrate or the person to whom the commission has been issued, shall be paid carriage hire for two hours in lieu of travelling allowance, whether the distance travelled be greater or less than one mile.

### Notes referring to article H, I, J and K.

(i) When two or more copies of a document executed by the same parties are presented for registration at the same time, an ordinary fee shall be payable for each copy: but any extra or additional fee which is payable under article H, I, J or K shall be charged as for one document only, no matter how many copies of that document may be presented for registration.

(ii) No extra fee shall be payable under article H when a document is registered by a Registrar, acting as Sub-Registrar, or by a Registrar in consequence of the Sub-Registrar, by whom it should be registered under section 28, being a party interested in the transaction to which such document relates.

under article K for the attendance of the registering officer or the Magistrate or for the issue of the commission, as the case may be, shall be charged so far as those persons are concerned.

L. The fees chargeable for authenticating or attesting the execution of a power-of-attorney shall be as follows:—

			Rs.
(i)	For a special power	...	2
(ii)	For a general power	...	4

M. \*For every copy of memorandum of a document to be forwarded to another office under sections 64, 65, 66 or 67, there shall be paid an extra fee equivalent to that payable under article A, B or E:

Provided that the fee for a copy shall not exceed Rs. 20 and the fee for a memorandum shall not exceed Rs. 2.

N. Besides the fees payable under articles A, B, C, D and E there shall be paid for the registration of every document of such length as to occupy more than two pages of the register, an extra copying fee at the rate of eight annas for every page or part thereof in excess of the first two pages.

#### Mode of Calculation.

Assuming 300 words to the page, such copying fee may be calculated by counting the number of words in the documents or, if no such calculation is made by the party presenting the document, the registering officer shall estimate the number of pages likely to be thus charged for, but the fee shall in every case be payable on presentation, and in case of miscalculation the document shall not be returned until any deficiency in the fee levied is made good.

*Example.*—A conveyance is presented for registration containing 1,350 words. If the party presenting the document certify to this fact, the registering officer will at once proceed to charge a fee for three pages ( $1,350 - 600 = 750$ ), i.e., Rupee 1-8 annas. If the number of words is not known, the registering officer may charge for two extra pages, or Rupee 1 only, and the deficiency of eight annas must be made good before the document is returned.

O. When a document remains unclaimed for more than one month after completion of registration, a fee of eight annas shall be charged for every month or part of a month beyond the first month after such completion. The total amount of such fees shall not exceed Rs. 10 in any case.

P. When a document remains unclaimed for more than one month after refusal of registration, a fee of eight annas shall be charged for every month or part of a month beyond the first month after such refusal. The total amount of such fees shall not exceed Rs. 10 in any case.

#### Note referring to articles O and P.

A Registrar is empowered to remit, in whole or in part, the fees chargeable under articles O and P in any case in which it appears to him that the realization of such fees would be clearly productive of injustice or hardship.

† *Exemptions.*—The following classes of documents are exempt from the payment of registration and, in the case of (6), of copying fees:—

CALCUTTA, THE 23RD MAY 1925.

## RESOLUTION—No. 1225 Mis.

WHILE the remission of the provincial contribution to the Central Government for a further period of three years will leave only a small surplus, it is most desirable to undertake without further delay new recurring expenditure in the Transferred Departments. In this connection the Government of Bengal have for some time had under consideration the enhancement of registration fees—a course which was recommended by the Bengal Retrenchment Committee, who were of opinion that an immediate doubling of such fees would be fully justified. In all provinces registration fees are regarded as a legitimate source of revenue, and the Governments of Madras and Bihar and Orissa have recently raised the fees within their provinces. The Government of Bengal have, therefore, decided to raise the fees with effect from the 1st June 1925. As it is not proposed to change the *ad valorem* fee under Article A of the Table of Fees under the Indian Registration Act, 1908 (XVI of 1908), in cases where the value of property does not exceed Rs. 250, the increase in the fee rates will not be felt by the poorer classes.

2. The whole of the additional income thus realised, which is expected to amount to 10 lakhs during the current year and to 12 lakhs in subsequent years, will be made available for expenditure on new recurring schemes in the Transferred Departments and the Bengal Legislative Council will be asked to vote supplementary grants on this account at the next session.

ORDER.—Ordered that the resolution be communicated to the Inspector-General of Registration, Bengal, for information and for communication to District Registrars. Ordered also that the resolution as well as a notification promulgating the increased rates of fees be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal  
(Department of Education),

*Secretary to the Government of Bengal (offg.).*

Midnapore.

#### Rules.

So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow the owner or occupier of any holding paying a water-rate imposed under the provisions of part VII of the Bengal Municipal Act, 1884, on the annual value of such holding when such annual value is not less than Rs. 50 or such higher amount as may be fixed from time to time by the Commissioners at a meeting, to lay down communication pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions :—

1. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply, must apply for the same in a printed form to be supplied free of cost at the municipal office; and the work must be commenced within three months from the date of sanction, failing which the sanction shall be deemed to be withdrawn, and a fresh application and sanction shall be required.

2. Before any work is commenced every such owner or occupier must pay to the Commissioners a sum equal to one-third of the annual valuation of his holding, or in case where the one-third of the valuation is below Rs. 100, a sum of Rs. 100, or such fee as the Commissioners at a meeting may from time to time direct for each new connection, and a fee of Re. 1 for each addition to, or alteration in, an existing connection, such fee to be in addition to all other costs and charges imposed under these rules.

3. Each holding must have a separate connection, and extensions from the communication pipe of one holding to another shall not be permitted :

Provided that a connection may be allowed from a common communication pipe if such pipe is laid in a street or common passage, and a separate stop-cock and meter is fixed to each such connection ;

Provided that no holding shall have more than one separate connection, but that if in any case the Commissioners are satisfied that an adequate supply in any holding cannot be given through a single connection, they may sanction a second connection thereto.

4. The owner and occupier of the holding in respect of which the connection is required must pay the entire cost of the connection including the supply and fixing of the fittings referred to in rule 8, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water-mains or pipes, and the cost of such other works as may be necessitated by, or result from the work of making such connection.

5. The owner or occupier of the holding to which a connection has been given must at any time, on receipt of notice to do so from the Commissioners, pay the entire cost of any repairs or alterations to the connection or any part thereof that the Commissioners may consider necessary to put it into a satisfactory condition, or which may be necessitated by any change in the municipal water-works or system of distribution or by the defective condition of the connection or any part thereof or by any other cause whatever.

6. (1) The works required under rules 4 and 5 may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the works are required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(2) No work shall be carried out under sub-rule (1) except under the supervision of a municipal officer.

7. No connection shall be allowed to the rising main except with the permission of the Commissioners at a meeting.

8. A holding connection shall comprise the following parts or fittings :—

- (a) a brass or gun-metal ferrule inserted in the main supply-pipe ;
- (b) a galvanized iron communication pipe from the ferrule to the meter ;
- (c) a stop-cock and its surface box ;
- (d) a meter ;
- (e) service-pipe from the stop-cock to the taps ; and
- (f) taps

9. (1) All fittings referred to in rule 8 shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them in meeting.

(2) All fittings shall be inspected and tested and stamped by an officer of the municipality before being fixed.

(3) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns, he must present such fittings for the approval of the Chairman, and any fitting so presented may, if considered satisfactory by the Chairman, be stamped and samples thereof may be purchased and placed among the standard fittings.

10. The holding connection, when fitted in position, must be capable of standing a pressure of 110 feet, and no water shall be supplied until it has stood such a test applied by the Commissioners.

11. The size of the ferrule and the diameter of the communication pipe referred to in clauses (a) and (b) of rule 8 and the number of the taps shall be fixed in accordance with the annual valuation of the holdings as follows:—

Over Rs. 2,500 one additional tap for every additional Rs. 1,000 in the annual valuation of the holding, and, when necessary, a corresponding increase in the size of ferrule or tee piece in the municipal main and in the diameter of the communication pipe:

Provided that though the communication pipe shall not ordinarily be more than 1" larger in diameter than the ferrule, yet the municipal engineer or any other authorised officer may, under special circumstances, fix the size of the communication pipe with reference to the length of the pipe and the prevailing pressure.

12. (1) On every communication-pipe, a brass or gun-metal stop-cock having the same waterway as such pipe shall be placed as near as practicable to the point where that pipe enters the holding to be supplied.

(2) The stop-cock shall be built in a brick chamber provided with a surface cover box so designed that it can be locked, and the key of this box shall remain under the control of the Chairman.

(3) The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

13. (1) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(2) The meter must be fixed in a brick chamber covered over with a cast-iron surface box of approved pattern.

RESOLUTION.

The Government of India have read with interest the second Annual Report of the Indian Central Cotton Committee for the year ending the 31st of August 1924. The feature of the year is the progress which has been made in carrying out the Committee's research programme. In the Presidencies of Bombay and Madras, in the Central Provinces and in the United Provinces, the Committee has, by its grants, enabled valuable research work, aimed at combating diseases and pests of cotton and at improving its staple to be undertaken. The scheme for an Institute of Plant Industry at Indore, which the Committee has financed in co-operation with the Central India States, was sanctioned by the Government of India during the year, and a much needed Central Institute for cotton research has thus been provided. Technological research on cotton is being carried on under the Committee's own control, and the Technological Research Institute at Bombay commenced work during the year under report. The Spinning Laboratory was completed towards the close of the year, and was formally opened on the 2nd of December 1924 by His Excellency the Viceroy, who also laid the foundation stone of the permanent Research Laboratory. Under the Committee's scheme for research studentships, nine graduates of Indian Universities have been appointed to studentships and are working under experienced investigators in various parts of India. The object of these studentships is to build up in India a corps of qualified research workers conversant with the technique of scientific investigation as applied to cotton problems and experienced in the methods of experimental research. The Cotton Transport Act, 1923, has been put into force in the Bombay Presidency so far as the principal long staple cotton areas are concerned, and the evidence so far received goes to show that as a result of the first year's working of the Act, the cottons of these areas have greatly improved in quality, and have commanded enhanced prices to the substantial benefit of the grower. The Committee can thus look back with satisfaction upon the progress made during the year and can face the future confident that a sure foundation has been laid for much useful work. The Government of India once more desire to acknowledge the valuable services rendered by the President, Vice-President and members of the Committee and the work of the Secretary, Mr. B. C. Burt.

ORDERED that the resolution be published in the Supplement to the *Gazette of India* for general information.

ORDERED also that a copy of the resolution be forwarded to the Commerce Department, Agricultural Adviser to the Government of India, and Secretary, Indian Central Cotton Committee, for information and communication to the members of the Committee.

## MAINAMATI SURVEY SCHOOL.

(Post-office Mainamati, district Tippera.)

## Admission Rules (Provisional).

THE Mainamati Survey School is a Government institution under the administrative control of the Director of Industries, Bengal. It is situated on the Mainamati Hill, four miles from the Comilla railway station in the Tippera district.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The full course of instruction extends over two years : either the full course may be taken, or the first year's course only. At present the session for the first year's course begins from the 1st August, terminating on the 31st July of the following year.

4. The session for the second year's course extends without a break from the first Monday in November to the middle of September of the following year.

5. It is a residential institution, and the students are required to reside in the school premises and must conform to the rules sanctioned by Government. Students may live with their parents or with approved guardians with the special permission of the Principal. The messing charges for Hindu students average about Rs. 10 per month. Owing to the paucity of Muhammadan students they are allowed to make their own messing arrangements.

6. The qualifications for admission to the first year's course are :—

(a) A sound knowledge of elementary arithmetic.

(b) Ability to write simple English and vernacular.

(c) Fitness for arduous field-work.

(d) A certificate of character from the head of the institution where he was last educated.

NOTE.—Preference will be given to those who have passed the Matriculation Examination or received higher education.

7. The maximum age of the candidates for admission to the first year's course should be under 21 years on the 1st January of the year of admission, but an exception to this rule may be made in special cases.

8. Application for admission into the first year's course must be accompanied by a registration and examination fee of Rs. 3 and should reach the Principal's office on or before the 30th June. The registration and examination fee shall, in no case, be refunded.

9. Candidates who do not possess a fair knowledge of English will not be ordinarily promoted to the second year class.

10. All payments, whether on account of tuition fees, boarding and lodging, must be made at the Principal's office on or before the 15th of each month. After that date no payment shall be taken, unless accompanied by a fine of Re. 1 for every three days' delay. If the payment is not made during the month for which it is due, the defaulting student's name shall be struck off the school roll, and he will not be re-admitted until he has paid all arrears, together with any fines which may be due from him, and a re-admission fee of Rs. 5.

11. The following monthly fees, payable for twelve months, are charged :—

14. Leave for short periods not ordinarily exceeding ten days in a year may be granted to students by the Principal in special cases. Students present at the school but unable to do any work on medical ground are excused from attending the class on the recommendation of the resident medical officer, but frequent leave on petty excuses may render a student medically unfit for the course and his name may be struck off the roll.

CALCUTTA, the 18th May 1925.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 20th May 1925.

**Summary.**—During the week moderate rain fell over the greater part of the province. Sowing of new crops continues in the West Bengal districts. Prolonged wet weather interfered with the sowing of jute and paddy and lowered the prospects of standing crops in some low land tracts of North East Bengal. Dry weather at this stage would benefit their growth. The average price of common rice for the province has risen by about 0.25 per cent. as compared with that of the previous week.
